Salary of £22,636 per annum

Applications open: Monday 27th February 2017 at 09:00 (GMT)

Applications close: Friday 10th March 2017 at 12:00 (GMT)

The UK Foundation Programme is responsible for training doctors in across the UK and we are currently looking for doctors with full registration with the General Medical Council (GMC) to join the foundation training programme from July 2017.

The first year of the programme will provide an opportunity to take supervised responsibility for patient care, and depending on satisfactory progression, could lead to increasing responsibility for patient care during the second year of the programme. Satisfactory completion of year one will lead to the awarding of Foundation Year 1 competence and progression to year two.

Applicants who hold or are eligible to apply for full GMC registration are invited to apply for foundation training programmes across the UK. Successful applicants will be given the opportunity to gain further experience through a work based training programme supported by a local foundation school.

Interviews will be held week commencing **Monday 3rd April 2017**.
